

Steel Belt Systems

Chemical & Rubber Discharge devices

Special discharge devices

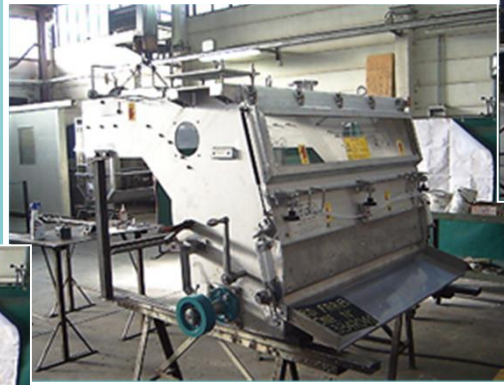

The discharge of the products from the belt might sometimes require the installation of special devices, which are designed each time by SBS STEEL BELT SYSTEMS, in order to satisfy customers' process needs.

EXAMPLES:

Pastilles by pass head/tail open mode

Discharge hopper pastilles/flakes with by pass

Pastilles by pass head/tail closed mode

Open mode

Discharge hopper pastilles with by pass head/tail

Closed mode
